Re: Barton United States Patent Application #10/074,628	CC:

Thank you for taking the time to speak with me on Monday morning, May 12, 2003. I appreciated your advice and direction. Pursuant to our conversation, I have included the following:

- **Major Differences between Shinmi United States Patent #4,569,870 and Barton United States Patent Application #10/074,628**
- **Amendment to Barton United States Patent Application #10/074,628** This Amendment cancels claims 1 through 3 and replaces them with claims 4 through 6.

(Ms. Ruddock, I have also included a sheet that is plainly titled "Amendment". I did not know which heading for the amendment is correct. Please place the correct one in my application. Thank you.)

- **Claim(s) 4 through 6** which replace earlier claims 1 through 3. (Here again, I was not sure whether the statement "The invention is claimed as follows" was needed on the submission. I have included a copy of the Claim(s) with the statement and one without. I would appreciate your assistance to place the correct one in my application. Thank you.

If you should have any questions, please feel free to contact me at 614-834-9592. My fax number is 614-331-5862.
